**Dear Mr. President,**

**You have already made the history for an all-out U.S. government's transparency which in time will better prepare a knowledgeable public participatory democracy in United State of America and, ultimately, around the world. In the same spirit, I am respectfully requesting the declassification and public release of all files related to the instrumentation of the Carter Administration for the fall of Shah and the rise to power of Ayatollah Khomeini and Islamic Republic. These files have only been partially released to the Library of Congress and not in digitized form, which makes the public access almost impossible.**

**As you are aware, the 1979 events fundamentally reshaped Iran, the Middle East, and created complications of catastrophic scale for U.S. and the world for decades.**

**On another issue, but related matter of US-Iran relations, President Obama's Secretary of State, Mrs. Madeleine Albright, acknowledged, and even apologized, for "the CIA's involvement in the coup that deposed the democratically elected Prime Minister, Dr. Mohammad Mossadegh, and restoring the Shah to power on August 15-19, 1953". Indeed, the same administration handed \$150B plus a jumbo jet of untraceable cash to Islamic Republic rulers which helped them to size up its terrorist forces in the Middle East and the world. Therefor I also urge you to public release of all remaining classified documents related to the CIA's role in 1953 events, which only have been partially released to the Library of Congress.**

**Respectfully yours,**

**Assadollah Nasre Esfahani, PhD**
